

Kvittering for ansøgning til fritidspuljen.

Kære ggdebateclub

Hermed kvittering for din ansøgning til fritidspuljen.

Projekt navn	Grenaa Debate Club
Formål med projektet	We strive to help students enhance their skills and abilities through debate. Debate helps students engage with real-world issues while improving critical thinking, English proficiency, argumentation, and analytical reasoning. Our topics expose students to new perspectives and can give them a deeper interest in some of the subjects we discuss. We organise workshops that teach debating skills (public speaking, persuasion or news analysis) and tournaments where students debate current topics in a competitive WSDC format. Our events are open to everyone, and our last event was attended by more than 100 students. Further information about our activities can be found on our website: ggdc.club or our Instagram @ggdebateclub
Projektbeskrivelse	The funding we are applying for would be used for multiple projects. 1. International tournaments We would like to give some of our members the option to compete in an international tournament. Having the option would provide great motivation and learning experiences for our students. It would also let them debate against the best teams from all around the world and get feedback from experienced judges and coaches, which is not possible to get in Grenaa. Since high school students cannot afford all of the expenses associated, we are asking for funding to make this opportunity accessible. 2. Tournaments in Grenaa We organise tournaments for local students here in Grenaa. These are usually over the weekend and students spend at least an entire day there, usually slightly more. This is why we are asking for additional funding for catering, which would make our events more attractive and let students focus on debating. We are also asking for some funding for trophies and prizes, which would motivate students to participate too. We are currently planning 2 tournaments soon, so we are asking for help in funding both of them. 3. Advertising

Projekt navn	Grenaa Debate Club
	Spreading awareness about our activities is important to get more people into debating and have a larger impact. In this project, we are asking for funding for one Canva account subscription, which would help us make designs for posters and also design and maintain our website. Additionally, we are asking for funding for merchandise, boosting engagement and increasing visibility for our club.
Målgruppe	Our primary target group are high school students in Grenaa, but our activities are open to everyone.
Samarbejdspartnere og roller	Some of our activities are co-funded by Europa-Nævnet. We also collaborate with Grenaa Gymnasium and most of our tournaments and debates are held in their school. They also assist with catering.
Klima og bæredygtighed	Our activities help students think critically about global issues, interpret news and verify information. Many of our topics are clearly connected to climate and sustainability, for example, discussing possible interventions and their impacts on the environment and our economy.
